HTML Lab

Using CSS to style Durango Jewelry and Gem Shop (Lab 3).

1. Linking all HTML documents to a CSS File style.css in css folder.
2. Inside style.css body tag set width to 80%,margin-left to auto, margin-right to auto.
3. In all HTML documents add a div with class = "caption".

```
<div class="caption">
  <h1>Durango Jewelry and Gem Shop</h1>
  <h2>Distinguished wire-wrapped jewelry, pendants, and gems</h2>
</div>
```

    4. Inside style.css create caption class and set float property to left, ext-align property to center, margin-right property to 20%.

    5. Inside nav tag set margin-top to 20px, set margin-bottom to 30px, set padding to 10px, set border-top to 5px solid #FFFFFF, set border-bottom to 5px solid #FFFFFF.

6. Inside the main id set margin-top to 20px, set margin-bottom to 10px, set padding to 20px, set border-radius to 10px, set background-color:#FFFFFF, and set box-shadow:12px 12px 12px #404040.;

7. Inside style.css create footer tag and set font-size to .70em, text-align to center, margin-top to 150p.

8. In classics.html add column class.

```
<p class="column">
  <img src="img/wirewrap02.jpg" alt="smoky quartz pendant" width="300" height="350">
  <img src="img/wirewrap03.jpg" alt="smoky quartz pendant" width="300" height="350">
  <img src="img/wirewrap04.jpg" alt="smoky quartz pendant" width="300" height="350">
</p>
```

9. Inside style.css create column class and set float property to left, tpadding-left property to 10%.

10. In your textbook. Do chapter 11 exercise 11-2 and exercise 11 - 3 and chapter 12 exercise 12 -1, 12 - 2,12- 3,12- 4,12- 5, 12 - 6.
